

5th International Conference on Oncology and Research

July 25-26, 2019

Rome, Italy

Conference Invitation

Madridge Conferences is pleased to welcome you to the 5th International Conference on Oncology and Research on July 25-26, 2019 at Rome, Italy. The annual Cancer conference creates a platform for experts interaction simultaneously with networking opportunities and also provides an opportunity to explore the innovative ideas of the other communities, companies and associations.

Oncology is a multi-disciplinary field, which is in need of many interdisciplinary methods to prognoses, diagnose and treat cancer. Cancer, which is plaguing many low and middle Income Countries, is the second leading cause of death as per W.H.O. It is not a single disease to combat. There are more than 200 types of cancers, which need different treatments. It is alarming to know that deaths from cancer are also due to behavioural and dietary risks, such as: high body mass index; low fruit and vegetable intake; lack of physical activity; and use of tobacco and alcohol.

Hence, there is a need for inter-disciplinary search globally. The conference provides a platform for cancer researchers, clinicians, oncologists, academicians and young scientists from all over the world to meet, share, update and comprehend the major problems encountered in oncology.

Oncology-2019 conference includes plenary lectures, keynote lectures and short courses by eminent personalities from around the world. In addition to contributed papers, we also have oral presentations and poster presentations.

This International Oncology Conference provides a platform for cancer researchers, clinicians, oncologists, academicians and young scientists from all over the world to meet, share, update and comprehend the major problems encountered in diagnosing, preventing and treating cancer. Together we can fight against the deadly cancer by creating awareness and Oncology-2019 is the perfect platform.

Poster Competition at Madridge Conferences

We welcome all the young researchers and students to present your study in the Poster Competition. Madridge conferences provide you an opportunity of presenting your research-in-progress to international audience and experts in a visual format. As a poster presenter, you will have a unique opportunity to combine visual and oral explanations of your project.

This competition is open to all students (Graduates, Post Graduates and Research Scholars). Posters will be evaluated by the conference committee and the Honourable Judge. Best posters awards will be given to the winners as selected by the Judge.
