Diabetes Meet 2020

New innovations in the field of
Endocrinology and Diabetes

Diabetes Meet
2020

Future Scope of Diabetes: Accessions, Organizations & Research

Conference Dedicated to Innovate Solution to the Public Health Challenges
Your single Destination to reach Largest Assemblage of participants from
Diabetes Societies and Associations

Opportunity beyond any Comparison to Attend & Network

Experience the Global Ambiance with Researchers with Similar Significance

Make New Associations and Fostering Potential Partnerships

Learning & Knowledge in a Single Package

Worldwide Acknowledgement to your Research Profile

Explore the best in Cutting Edge Research

Learn Beyond your Field of Interest

Professional Development to Elevate your Knowledge and Skills

Diabetes Meet 2020

Speakers Representation from 50+ Countries

1 Conference | 2 Days

15 Keynote Talks | 75 Plenary Speakers | 17 Interactive sessions

Symposia | Workshops | Best Poster Award

200 Attendees | 50 Professors | and many more . . .

Greetings!

Welcome to most exciting and fascinating city Rome, Italy!

Within this splendid setting, we plan to deliver a conference that will exceed your expectations.

During this year's Conference, we hope that you will seize the opportunity to rekindle ongoing connections and spark new ones with your colleagues from around the globe. It's with great pleasure and great honor to invite you to the "***International Conference on Endocrinology, Diabetes and Metabolism***" scheduled during ***March 04-05, 2020*** at ***Rome, Italy***.

The Conference will be organized around the theme "***New innovations in the field of Endocrinology and Diabetes***"

Diabetes Meet 2020 anticipates more than 300 participants around the globe to experience thought provoking Keynote lectures, Oral & Poster presentations. This year conference will offer plenty of opportunities for all stakeholders working on Diabetes and Endocrinology to expose their research work.

Our conference aims to gather the Researchers, Principal Investigators, Experts, Diabetologists, Endocrinologists, Endocrine Surgeons from both academia and health care industry, Business Delegates, Scientists and Students across the globe to provide an international forum for the dissemination of original research results, new ideas and practical development experiences.

This year's Conference program, coupled with the Business Opportunity Exchange, is an event you can't afford to miss!.

Sincerely

Smruthi Ruth

Smruthi Ruth

Program Manager | Diabetes Meet 2020

Organizing Committee

Diabetes Meet 2020 Conference that dedicated to innovative solutions to the Public Health Challenges, which future the shape of Diabetes and Endocrinology. Our Conference will organize and allow to access the global researchers around the world in a single platform. Diabetes Congress 2019 will provide a great opportunity beyond any comparison to attend and network with Diabetes and Endocrinology Community.

Join us at our 2020 edition of Diabetes Congress to experience the Global Ambiance with the Researchers who work with similar significance of research. Diabetes Meet 2020 will help you to get answers to all your queries related to your research work and also it creates a great opportunity to make new associations and also helps to foster potential partnerships. Diabetes Meet 2020 will be a great platform for you to create long lasting relationship with the fellow researchers from Diabetes and Endocrinology Community.

Get worldwide acknowledgement to your research profile where more than 55000 Visitors who analyzed our conference website to attend and submit proposals of their research works. This is was recorded as the highest number of Visitors from both, developed and developing nations. While we penetrate the study of visitor, navigation, and traffic patterns to determine the success of our conference website, majority of the web traffic we receive from cities like New York, London, Valencia, Amsterdam, Madrid, Barcelona, Athens, Sydney, Paris, Frankfurt, Tokyo, Osaka, Melbourne, Moscow and Vienna.

Diabetes Meet 2020 website is attracting 56000+ Diabetologists, Research scientists, Diabetes and Endocrinology Organizations and societies, Pharmaceutical companies, Diabetes Industries, Diabetes associations, Professors and Students.

This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this, abstracts and research profiles of our speakers and organizing committee members are getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

Diabetes Meet 2020 Salient Features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to your problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Participation from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Awards Banquet and Closing Ceremony

Purpose

With members from around the world focused on learning about Diabetes and Endocrinology, this is your single best opportunity to reach the largest assemblage of participants from the scientific community.

Conduct demonstrations, distribute information, meet with eminent personalities, and make a splash with latest research innovations at this outstanding event.

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration.
- The goal of the conference is to provide a transformative professional development experience through global networking and sharing informations.
- Bringing together the world's scientific experts to catalyze and share advanced scientific knowledge about Diabetes and Endocrinology to present the most recent research findings and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address Diabetic diseases and endocrine disorders, to overcome barriers that limit access to care and services.

Objectives

After participating in this conference, attendees should be able to

- Discuss emerging issues in Diabetes and Endocrinology
- Discuss and apply recent research findings related to Diabetes
- Disseminate the diverse voices of breakthrough innovators with visionary and practical solutions.

Who should attend?

Endocrinologists, Diabetologists, Faculty, Health experts, Scientists, dietitians, nurture specialists, Industry Researchers, Business Leads, Networking and Business Delegates, CEOs, CMOs, Vice-Presidents, Directors, GMs, Scholars, Universities, Research Centers, Educational Institutions, Life Sciences, Associations, Societies, Manufacturing Medical Devices Companies.

Diverse Action-Oriented Programming & Networking

EXPERIENCE: the inspiring change around the country and world, through growing revolution of Diabetes and Endocrinology research.

EXPLORE the forefront of breakthrough ideas and models in cognitive keynote talks and featuring luminaries by “the greatest people you’ve never heard of”.

PARTICIPATE in afternoon panels and workshops/symposiums on diverse topics of Diabetes Education, Practice and Research, Diabetes life and more!

NETWORK with a community of leadership – dynamic change makers from around the country and world, or from your region, to develop important professional and personal relationships.

SHARE your insights and learnings at the conference in participatory and experiential workshops.

DISCOVER powerful opportunities and strategies for creating and engaging with progressive change in your work, life and community.

CELEBRATE how great a difference one person can make, and how building community amplifies that change.

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full manuscripts in our Open Access Journals

Diabetes Meet 2020 Outlook

Explore the best in Cutting edge Research

Change to learn beyond your field of Interest

Keynote sessions by world's most eminent and distinguished researchers

Conference Participation Inspires, Rejuvenate and Energize participants

Diabetes and Endocrinology is an unique platform to increase your reputation within the Diabetes and Endocrinology

Learning and Knowledge in a single package

Speaker's representation from 50+ Countries

1 Conference | 2 Days

Diabetes is a complex, chronic illness requiring continuous medical care with multifactorial risk-reduction strategies beyond glycemic control. Ongoing patient self-management education and support are critical to prevent acute complications and reduce the risk of long-term complications. Significant evidence exists that supports a range of interventions to improve diabetes outcomes. Diabetes Meet 2020 aims to encourage scientific exchange of ideas between the researchers at the cutting-edge of this field, to critically and collectively address the current state of the field and its future directions to strengthen the promotion of community close interactions between researchers across all levels.

Try not to miss the Diabetes Meet 2020 arrangements composed particularly for the leaps forward in Diabetes and Endocrinology research.

Diabetes Meet 2020 conducts a wide range of Sessions and Tracks which provides the participants and all the attendees with an opportunity to extend their information in the subject and interact with professionals in the field of Diabetes and Endocrinology, Practice and Research. The agenda of the conference highlights new and advanced science and current topics with interesting Sessions, Symposia, Workshops, and Plenary talks, Keynote Presentations, Young Researchers Forum and Poster Sessions.

Diabetes Meet 2020 have 18 technical sessions that encompass areas of different Diabetes and Endocrinology fields focusing on healthcare, evidence-based practice and advances in technologies.

Over the past few decades number of cases of diabetes have been increasing steadily. Global diabetes drug market was valued at 49.26 billion dollars in 2016 and is projected to reach global revenue of 66.29 billion dollars in 2021. Most used drug in the market in 2016 was human insulin. Global diabetes market valued \$125 billion in 2016 and is expected to reach \$155 billion by 2021. Global market for incretin-based therapeutics was valued \$12.7 billion in 2014 and is expected to reach \$22.8 billion by 2019. Global market for obesity treatments should reach over \$7.8 billion by 2021 from \$4.3 billion in 2016. Global market for Continuous Glucose Monitoring (CGM) products valued \$320.9 million in 2014 and is expected to reach \$783.9 million by 2019.

These sessions also provide a broad and comprehensive coverage of the Diabetes and Endocrinology field, while focusing on several rapidly emerging sub-fields. Each session will begin with a key thought-leader/practitioner who will present the unmet needs in their discipline that may be addressed. This will be followed by speakers, comprising of a mix of established senior leaders, rising star researchers, physician-scientist-engineers, and researchers who are working to solve one of the challenges in that discipline. In particular, the Organizing board decides the welcomed talks and finalizes the oral & Poster sessions towards the conference.

Rome is the capital of Italy and a special commune, it is a sprawling, cosmopolitan city with nearly 3,000 years of globally influential art, architecture and culture on display. Ancient ruins such as the Forum and the Colosseum evoke the power of the former Roman Empire. Vatican City, headquarters of the Roman Catholic Church, has St. Peter's Basilica and the Vatican Museums, which house masterpieces such as Michelangelo's Sistine Chapel frescoes.

Rome also serves as the capital of the Lazio region. With 2,877,215 residents in 1,285 km² (496.1 sq mi), it is also the country's most populated comune. It is the fourth-most populous city in the European Union by population within city limits. It is the center of the Metropolitan City of Rome, which has a population of 4.3 million residents. Rome is located in the central-western portion of the Italian Peninsula, within Lazio (Latium), along the shores of the Tiber. The Vatican City is an independent country inside the city boundaries of Rome, the only existing example of a country within a city: for this reason Rome has been often defined as capital of two states.

Rome's history spans more than 2,500 years. While Roman mythology dates the founding of Rome at around 753 BC, the site has been inhabited for much longer, making it one of the oldest continuously occupied sites in Europe. The city's early population originated from a mix of Latin's, Etruscans and Sabines. Eventually, the city successively became the capital of the Roman Kingdom, the Roman Republic and the Roman Empire, and is regarded as one of the birthplaces of Western civilisation and by some as the first ever metropolis. It was first called The Eternal City (Latin: *Urbs Aeterna*; Italian: *La Città Eterna*) by the Roman poet Tibullus in the 1st century BC, and the expression was also taken up by Ovid, Virgil, and Livy. Rome is also called the "Caput Mundi" (Capital of the World).

Accompany Partners' Policy:

We respectfully remind you that partners accompanying delegates/speakers are not eligible to attend conference sessions and do not qualify for refreshments and lunches during the day unless they have registered.

Any partner wishing to attend events not previously selected and paid for in his or her registration may do so at the Conference Registration desk.

We would be pleased to accommodate any requests where possible.

Registration and Accommodation

Policy:

Registration and accommodation changes will not be accepted unless made in writing.

Changes made within 14 days of the event may incur costs due to specific hotel and venue policies

Cancellation Policy:

Registration cancellations will not be accepted unless made in writing.

Cancellations request made before 10 August 2019 will be refunded less 25% of the Conference Registration fee, to cover administration costs.

No registration refunds will be processed after this date, however, substitute delegates are welcome.
