About Healthcare Forum

Healthcare and Pediatric 2020 is a forum to explore issues of mutual concern as well as exchange knowledge, share evidence and ideas, and generate solutions. The main focus of Healthcare and Pediatric was the diagnosis and treatment of patients, disease prevention and screening. Healthcare and Pediatric 2020 works with the theme “Healthy Women – Healthy Child – Healthy World” aims to discover advances in Women Health, Nursing & Health Practice, Nutrition, Obesity and Diet Management and Education in relation to health disparities as well as a depth of other topics.

Why to join ?

- Meet Experts & Influencers Face to Face
- Networking Opportunities
- Learning In a New Space
- New Technologies
- Greater Focus
- Have Energy of Like-Minded Individuals
- Investing on Yourself & finally have Fun!

Develop Networking with.....

- Industry leaders
- Product scientists
- Development managers
- C-level executive
- Academicians
- Food research departments

Meet your “Subject Matter Expert” (SME)

Subject Matter Experts will guide you in current Research & development. They help you in research queries, content, identify the objectives, and ensure your research scientifically acceptable.

Workshop/ Interactive Sessions

Workshop sessions involve extensive interaction between presenters and participants around an idea or hands-on experience of a practice. These sessions may also take the form of a crafted panel, staged conversation, dialogue or debate – all involving substantial interaction with the audience.

Round table Discussions

The right conference can be a game changer for your research and professional career. More importantly, the Round table conversation brings the experts networking and create the goldmine of opportunities.

Explore Dubai

Dubai is the largest and most populous city in the United Arab Emirates (UAE). On the southeast coast of the Persian Gulf, it is the capital of the Emirate of Dubai, one of the seven emirates that make up the country. Dubai is a global city and business hub of the Middle East. It is also a major global transport hub for passengers and cargo. Oil revenue helped accelerate the early development of the city, but its reserves are limited and production levels are low: today, less than 5% of the emirate's revenue comes from oil. Dubai's economy now relies on revenues from tourism, aviation, real estate, and financial services. Dubai has attracted world attention through large construction projects and sports events, in particular the world's tallest building, the HYPERLINK "https://en.wikipedia.org/wiki/Burj_Khalifa"Burj Khalifa. Dubai has been criticised for human rights violations against the city's largely South Asian and Filipino workforce. As of 2012, Dubai was the most expensive city in the Middle East. In 2014, Dubai's hotel rooms were rated as the second most expensive in the world.
