Mark Your Calendars for **Chemistry & Chemical Engineering 2020**

After the successful completion of 2<sup>nd</sup> **International Conference on Chemistry and Chemical Engineering at Hotel Mena Plaza Albarsha, Dubai (UAE) during October 2019**, it is with great delight we announce & welcome you to the **3<sup>rd</sup> International Conference on Chemistry and Chemical Engineering**, scheduled during **June 18-19, 2020** at **Berlin, Germany**

Our overriding goal is to find new innovative & an optimistic techniques in Chemistry & Chemical Engineering 2020. We are trying hard to gather world's leading faculty in this area to enrich this year's program.

This year's theme is "**The future of chemistry & chemical techniques for innovative & an optimistic view**". The Chemistry & Chemical Engineering 2020 Scientific Sessions appeals to pharmaceuticals, healthcare, petrochemicals, food processing, electronic and advanced materials, polymers, biotechnology, environmental health and safety industries, researchers, industries, start-ups, investors and reimbursement authorities, faculty and health professionals.

The Chemistry 2020 conference runs for 2 days, from **Thursday 18 to Friday 19 June 2020** and it will deliver an outstanding scientific program, meaningful networking opportunities and memorable cultural experiences to delegates from 30+ countries.

Chemistry 2020 in Berlin is your opportunity to stay up-to-date on the newest breakthroughs in Chemistry & Chemical Engineering. Conference provides a premier interdisciplinary platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of Chemistry and Chemical Engineering.

*We look forward to welcoming you to Berlin!*

## Meeting objectives:

- Foster research on the mechanical behavior of Chemistry and Chemical Engineering
- Advancement of knowledge on all aspects of Chemistry & Chemical Engineering
- Understanding of the processing, application, and sustainable use of Chemical Engineering
- Theoretical and practical aspects of Chemical Engineering to promote related international cooperation among Scientists and Engineers
- In touch of the rapidly changing strategies in Chemistry management
- You will leave the conference with more practical knowledge and awareness about Chemistry & Chemical Engineering

**This conference is being handcraft by practitioners in the Chemistry & Chemical Engineering field to help you achieve the education you need to succeed in your craft.**

SciTech Conferences is global covering Life Sciences, Physical Science & Engineering, Social Sciences and Health Sciences Conferences. We are currently focused solely on Medical related Events, Conferences and Innovations. Our main emphasis is on managing meetings, events and conferences for the scientific research and medical fields. We have brought together a multidisciplinary team, composed of scientist from various reputed organizations and universities across the globe.

The Company of SciTech Conferences is a self-funded dedicated to supporting and inspiring the Health care community. We've built a wealth of knowledge in medical and scientific meeting planning and understand how to meet the complicated and specialized requirements scientific research events often demand. We bring together specialized knowledge on handling conferences with latest technology and effective communication to ensure excellence. We are committed to ensure that the changing demands of health care system are understood and the best results are delivered.

## Other salient features comprehend:

- Publishing of the accepted abstracts in our inordinately indexed journals
- Each of which will be labelled with a Digital Object Identification Number (DOI)
- Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.
- Career Guidance Workshops for students and early career researchers

## Keynote Speakers:-

**Prof. Imre Klebovich**  
Semmelweis University  
Hungary

**Dr. Moinuddin Sarker**  
President, CEO & CTO at  
Waste Technologies LLC, USA

**Prof. Salah Arafa Mohamed**  
The American University in  
Cairo, Egypt

**Dr. Sumit Kumar Gupta**  
Dean, Faculty of science  
Parishkar College of Global  
Excellence Jaipur, India

## Plenary Speakers:-

**Prof. Alexander Buzynin**  
Russian Academy of  
Sciences, Russia

**Prof. Andrey Dmitriev**  
Ural Federal University  
Russia.

**Prof. Jean-Claude Charpentier**  
Former President of the European  
Federation of Chemical Engineering  
Former Dean of ENSIC & University of Lorraine, France

**Prof. Arieh Ben-Naim**  
The Hebrew University of  
Jerusalem, Israel

**Prof. Vesselin Shanov**

Berlin is best known for its historical associations. As the German capital, internationalism and tolerance, lively nightlife, its many cafés, clubs, bars, street art, and numerous museums, palaces, and other sites of historic interest. Berlin is one of Europe's finest cultural hubs – but it's also the continent's premier venue for meetings and conferences. A modern powerhouse of art, culture, and entertainment, Berlin's youthful vitality and sophisticated atmosphere draw visitors from around the globe. Known for its exceptional value, Berlin allows meeting planners and delegates to get more value for their money than any other European city.

### Getting around in the city:

Situated in the heart of Europe, Berlin's national and international transportation links make it easily accessible from points around the globe, while extensive rail systems connect to cities across Germany and Europe. From the elevated railway known as S-Bahn, to public buses and underground U-Bahn trains, the next stop in Berlin is never far off. Additionally, about 7,000 taxi cabs are on hand to ferry travelers from one end of Berlin to another. Public transportation in Berlin is not only affordable but also always on time. One of Europe's most widely visited cities; tourism is also a major contributor to Berlin's economy. High-profile corporations such as Siemens and Deutsche Bahn are headquartered in Berlin.
