Host City

Florence, capital of Italy's Tuscany locale, is home to numerous magnum opuses of Renaissance craftsmanship and design. One of its most famous sights is the Duomo, a church building with an earthenware tiled arch built by Brunelleschi and a chime tower by Giotto. The Galleria dell'Accademia shows Michelangelo's "David" mold. The Uffizi Gallery shows Botticelli's "The Birth of Venus" and da Vinci's "Annunciation."

Florence was a focal point of medieval European exchange and money and probably the wealthiest city of that time. It is considered by numerous scholastics the origin of the Renaissance, and has been designated "the Athens of the Middle Ages." Its fierce political history incorporates times of rule by the amazing Medici family and various strict and republican insurgencies. From 1865 to 1871 the city filled in as the capital of the Kingdom of Italy (settled in 1861). The Florentine tongue frames the base of Standard Italian and it turned into the language of culture all through Italy because of the glory of the artful culminations by Dante Alighieri, Petrarch, Giovanni Boccaccio, Niccolò Machiavelli and Francesco Guicciardini.
