# ABOUT THE CONFERENCE

---

**The Infectious Disease World Conference IDWC 2024** is dedicated to expanding the horizons of research in the Infectious disease domain. This conference fosters creativity and pioneering discoveries through international collaboration, working with a common vision to address the critical challenges associated with infectious diseases. The conference emphasizes advancing discipline through state-of-the-art scientific initiatives, all with the ultimate goal of enhancing our understanding in the context of infectious diseases and formulating innovative containment strategies for the same.

Infectious diseases accounted for only one-sixth of disability-adjusted life years (DALYs) lost. Thus, infectious disease poses a great danger to human health and is demanding an immediate need for research and innovation to control its global impact.

We'll see that the best organizing team shares your best work on the best platform. We'll work hard to make the conference successful with the most significant planning schedules. It would be an incredible experience for you, us, and everyone attending the conference.
