ABOUT NURSING & MIDWIFERY 2024

Nursing is to promote quality research and real-world impact in an atmosphere of true international cooperation between doctors and nurses by bringing together again the world-class researchers, International Communities and Industrial heads to discuss the latest developments and innovations in the fields of Nursing & Health Care Conference.

MIDWIFERY IS A "Skilled, knowledgeable, and compassionate care for childbearing women, newborn infants, and families across the entire lifespan from pre-pregnancy, pregnancy, birth, postpartum, and the early weeks of life" is a term associated with midwifery. The data demonstrates that midwifery plays a "critical" role and is linked to better care quality as well as quick and long-lasting drops in maternal and infant mortality when delivered by educated, trained, licensed, and regulated midwives.

Women's health covers unique issues such as pregnancy, menopause, and feminine organ conditions. Proper prenatal care, screenings, and tailored nutrition are vital for healthy pregnancies and overall well-being.

Nursing & Midwifery 2024 is dedicated to promoting knowledge sharing among esteemed scientists and emerging researchers from various disciplines, the event fulfil its mission of addressing critical health challenges in Nursing, Midwifery and Women's Health through interdisciplinary collaboration and innovative approaches.
