

World Summit on **Women Health and Gynecology**

June 24–26, 2026

Rome, Italy

WOMENHEALTH-2026

Where Science
Meets the
Future of
Women's
Wellbeing

About the Summit

A leading international platform bringing together clinicians, researchers, public health experts, and industry to explore the latest developments in women's health and gynecology. Key thematic areas include reproductive medicine, maternal health, hormonal disorders, and gynecologic oncology.

Why Attend:

-  **Global Platform** – Connect with leading minds in women's health and gynecology.
-  **Insightful Sessions** – Discover breakthroughs in reproductive care, oncology, mental health & more.
-  **Networking Hub** – Meet researchers, clinicians, innovators, and policymakers
-  **Research Exchange** – Present your work and gain global visibility
-  **Inspiring Location** – Experience science and culture in the heart of Rome

◆ Workshops

Hands-On Skills with Real-World Relevance

Participate in interactive sessions that combine theory with practice — ideal for clinicians, researchers, and students aiming to sharpen techniques and strategies.

Collaborate in simulated case studies and gain practical tools to enhance clinical decision-making and patient outcomes.

◆ Short Courses

Focused Learning for Lasting Impact

Gain in-depth knowledge on specialized topics through intensive, expert-led short courses designed for practical application and skill advancement.

Stay updated with the latest evidence-based practices and guidelines in women's preventive care and hormonal health.

◆ Panel Discussions

Expert Voices, Real Conversations

Join vibrant panels featuring global leaders as they tackle current challenges, future directions, and policy perspectives in women's health and gynecology.

Explore interdisciplinary perspectives on reproductive rights, mental health access, and global women's health policy.
